■ San Rafael, Heredia, Costa Rica

PROFESSIONAL PROFILE

Systems Engineering student with technical background in Networking and IT Support. Hands-on experience configuring networks using Cisco Packet Tracer and GNS3, including subnetting, VLANs, DNS, and site-to-site VPNs. Solid knowledge of the CCNA 1-3 curriculum, network traffic analysis with Wireshark, and Python scripting applied in real work environments. Proficient in Windows/Linux support, Active Directory, and preventive/corrective hardware maintenance. Cybersecurity-oriented with a CyberOps Associate certification. Self-motivated problem solver seeking a first professional role in networking, IT support, cybersecurity, or development — open to both on-site and remote positions.

TECHNICAL SKILLS

Networking	Subnetting, VLANs, DNS, Site-to-Site VPN, CCNA 1-3, Cisco Packet Tracer, GNS3, Wireshark
Systems	Windows Server, Linux (Ubuntu), Active Directory, Backup & Recovery
IT Support	Help Desk, Ticketing Systems, Preventive/Corrective Maintenance, Hardware & Software
Programming	Python (scripting, basic automation), HTML/CSS (web projects)
Cybersecurity	CyberOps Associate, network security fundamentals, traffic analysis
Tools	Cisco Packet Tracer, GNS3, Wireshark, Scrum (SFC certified)

EXPERIENCE

IT Support & Networking Intern — *ESPH S.A.*

Oct 2025 – Nov 2025

Heredia, Costa Rica | Oct 2025 – Nov 2025

- Configured site-to-site and Remote Access VPNs to provide secure connectivity for remote users.
- Installed and configured operating systems on multiple workstations, including drivers, software, and enterprise applications.
- Managed user accounts and permissions in Active Directory across different departments.
- Collaborated in backup and data recovery systems, ensuring information availability.
- Performed preventive and corrective maintenance on hardware at physical and logical levels.
- Tracked and managed IT equipment inventory.
- Applied Python scripting to automate routine IT support tasks.

IT Support Intern — *Area de Salud San Rafael de Heredia*

Aug 2024

San Rafael, Heredia, Costa Rica | Aug 2024

- Resolved daily Windows, Office, printer, and connectivity issues for medical and administrative staff.
- Assembled, repaired, and maintained desktop computers and laptops.
- Configured user accounts, email, and profiles on institutional systems.
- Logged incidents in ticketing platforms, maintaining full traceability of each case.
- Installed Linux Ubuntu, Windows, and enterprise tools on workstations.

PROJECTS & LAB WORK

Network Labs (Packet Tracer & GNS3)

Designed and implemented network topologies with VLANs, subnetting, dynamic routing (OSPF/RIP), and DNS/DHCP services.
Simulated real enterprise environments.

Web & Python Projects (GitHub)

Developed web pages and Python scripts published on GitHub, applying automation logic and web development fundamentals.

EDUCATION

Bachelor's Degree in Systems Engineering <i>Universidad Fidelitas</i>	May 2026 – 2028 (in progress)
Bachelor's Degree in Systems Engineering (1st Term) <i>Universidad Hispanoamericana</i>	Jan 2026 – Apr 2026
Technical Degree in Systems, Networks & LAN/WAN Communications Administration <i>CTP San Isidro de Heredia</i>	2023 – 2025

CERTIFICATIONS

Cisco	- CyberOps Associate — Cisco Networking Academy · Sep 2025 - CCNA: Enterprise Networking, Security & Automation — Cisco · Jun 2025 - Linux Essentials — Cisco / NDG · Jun 2025 - CCNA: Switching, Routing & Wireless Essentials — Cisco · Dec 2024 - Network Technician Career Path — Cisco Networking Academy · Aug 2024 - CCNA: Introduction to Networks — Cisco · Jul 2024 - IT Essentials — Cisco Networking Academy · Feb 2024
Management	- Scrum Fundamentals Certified (SFC) — SCRUMstudy · Mar 2026
